

# Maximise your potential Realize your ability

**Chella Software Private Limited (ChelSoft) is a product company servicing large financial institutions in the niche area of securities trading. We solve techno-functional problems for treasuries, central counterparties, fund managers and stock brokers by delivering full business solutions with equal importance to functionality and technology.**

## **Our People**

ChelSoft team is a cross section of domain consultants, engineers, application programmers and business staff. It is a bright young team comprising 75% engineers, the rest being postgraduates and computer science graduates.

## **Our Location**

Chelsoft is headquartered in Madurai and has sales and support offices at Mumbai and Singapore. It works through partner firms and system integrators in India, Middle East, Singapore and East Africa. ChelSoft has grown owing to the commitment and dedication of its team of consultants.

## **Our Culture**

ChelSoft has a friendly and open atmosphere with a fast paced environment. Challenging work with big responsibilities for people with only a few years experience is the norm. This is a place where innovation and initiative are greatly encouraged coupled with tons of learning opportunities.

This is also a company where you can listen to music while working. The professionals at ChelSoft participate in fun activities, tours and birthday celebrations and are proud of the congenial atmosphere that the company has. Flexible work schedule allow our people to fulfill their family and social commitments easily.

ChelSoft understands its responsibility towards society and has initiated Jannal Thirappom, a program to create awareness on mosquito control through socially responsible behavior. It is currently working with CII on Internet and Children, an initiative to create awareness on Internet hygiene among parents and children.

## Our Expertise

### Capital Market Solutions

Our experience in the area of capital markets, covering order management, risk management and clearing and settlement spans over a decade. We continue to partner with global investment banks, security broking firms and institutions like the Clearing Corporation of India in their mission critical operations. These solutions today process several billion dollars worth of transactions. Working across geographies from frontier markets like Kenya to highly evolved markets like the UK and Singapore has helped us gain a unique perspective of problems involved in this domain. This hard gained experience reflects in the solutions that we build and deploy.

### Treasury and Investment Management Solutions

Our treasury management solutions provide a secure, efficient and highly automated environment for recording, monitoring and accounting of investments and treasury transactions. We have serviced corporate treasuries, treasury and investment departments of insurance firms, mutual funds, portfolio managers and banks.

## Some Success Stories

Corporate treasury and investment management platform for Qatar Insurance Company, second largest general insurance firm in the Gulf Cooperation Council region with an investible fund base of over US\$ 1 billion.

Keppel Corporation Limited has a market capitalization of about S\$ 13 billion and is listed in the SGX. With many subsidiaries and spread across 35 countries, it operates one of the most complex and sophisticated group treasuries in the region.

Clearing Corporation of India Limited, one of the first central counterparties for OTC trades to beset up in the world.

CFC Stanbic Financial Services Limited, among top 3 brokers in Kenya and subsidiary of the Standard Bank Group (largest banking group in Africa).

HSBC InvestDirect has commissioned us to build and deploy a multi asset online risk management and surveillance platform.
